# 20FT LUNCH ROOM

Take your team out for lunch, on their time, and their money, in an SCF lunch room. With almost 11 square metres of internal space, there's enough room for up to 10 people to enjoy their lunch in comfort and safety.

Details

Built with the same high-quality materials as our standard containers and portable buildings, the SCF Lunch Room is a dedicated space for your team and contractors to safely enjoy lunch, hot or cold drinks, and light refreshments throughout the day. Each unit is construction compliant with all Australian standards and the National Construction Code 2013.

All units are built with a strong focus on safety and security, including lockable steel doors, hardwired smoke alarms with battery backup, internal lighting and windows with fly screens and security mesh.

SCF Lunch Rooms are installed with Rockwool insulation, energy efficient split system reverse cycle air conditioning, hot and cold water, sink, stainless steel kitchenette bench and energy efficient internal lighting.
