# 20FT CONTAINER WORKSHOP

No workshop provisions onsite? Consider an SCF Shipping Container Workshop. A ready-made container with shelves and workbench provides a safe, isolated space to complete a wide range of work. It is a strong, secure alternative to a shed or garage.

Details

A flexible alternative, the SCF Shipping Container workshop provides a safe, isolated location to complete a range of works. This site shed has ample storage for tools and equipment. Lockable cages can be installed to protect tools from quick hands, or secure dangerous items that should only be used by qualified trades. All workshop containers are lockable to protect items out of hours. They have been built with a strong focus on safety to satisfy all the necessary OH&S requirements. Give your trades or yourself a recognised space to safely complete their work that won't impact others onsite.

Key Features

- Lock-box provides security for onsite storage of equipment
- Easily transportable with low mobilisation costs
- Base level workshop includes 3 tier shelving rated to 400kgs
- Powered units include single phase wiring, energy efficient lighting and an easily accessible GPO
- Can customise to meet your exact requirements

Options

- For weather harsh conditions, insulation and reverse cycle air-conditioning with 3-phase power
- Personal Access, roller and double doors
- Windows or hatches
- Heavy duty workbenches and steel floors
- Aluminium flooring
- Additional GPO's for flexible positioning of power tools
- Hard wired smoke alarms for improved safety
- Whirly birds
