40FT CRIB AND BATHROOM

Your all in one comfort and convenience solution. SCF's 40ft Crib with separate bathroom provides ample space for your team to relax, refuel and refresh.

Details

Your all in one comfort and convenience solution. SCF's 40ft Crib with separate bathroom provides ample space for your team to relax, refuel and refresh.

Built with the same high-quality materials as our standard containers and portable buildings, the 40ft unit is particularly popular for sites that require multiple rooms and levels for the workforce. Halve the lifting requirements by using 1 x 40ft container instead of 2 x 20ft containers.

SCF 40ft Site Sheds are compliant with all Australian standards and the National Construction Code 2013. Rockwool insulation, split system reverse cycle air conditioning, hot and cold water, sink, stainless steel kitchenette bench and energy efficient internal lighting are just some of the standard features available. There are also provisions for an optional microwave and refrigerator, which can be installed in depot prior to delivery.

Key Features

- Hard wired smoke detector with battery backup
- Rockwool insulation
- Split system reverse cycle air conditioning externally recessed (within each 20ft footprint)
- Double stackable - 1x 40ft or 2 x 20ft containers
- Windows with flyscreen and security mesh
- Full bathroom facilities including shower

Specifications	External	Internal	Weight
