- Lugs for crane lifting

Options

- Need something custom built? Call 131 132 to discuss your requirements

Details

SCF's Chemical Storage Cabinet has been designed to make the most of small spaces. The internal shelf arrangement allows the safe and secure storage of palletised or IBC chemicals, corrosives and flammables.

Additional features include an interchangeable placard signage plate located on the external doors, fork pockets on both the sides and the front to allow nimble on site movement and an SDS pocket to keep Data Sheets close by.

As with all SCF Dangerous Goods products, the Chemical Storage Cabinet comes with an internal escape mechanism for peace of mind for your employees.
