

# 48FT WHEELED BULK LIQUID TANK

# 48ft Wheeled Bulk Liquid Storage Tank

SCF's 48ft Wheeled Bulk Storage Tank Container provides a scalable storage solution that can be deployed and fully operational within days, with storage volumes of up to 1 million litres.

## Key Features

- 500mm side access for cleaning and OHS
- 500BBL capacity (77,000L)
- 2 x 500mm hatches in roof
- Sump allows full evacuation
- Full manifold allows unit connectivity for larger projects
- Available in single and dual axle formats

## Options

- Brine and mud mixing
- Jet mixers fitted
- Mounting points for agitators
- Single or dual axle

## Details

SCF's Wheeled Container Tanks come in both single and dual axle configurations, allowing customers to road train units for deployments to remote projects or transport as single trailers to local sites.

The standardised manifold construction supports large volume scalable projects with very short mobilisation times reducing project costs.

Up to 1 million litres of storage can be supplied within 5 days with FDA approved lining available for potable water storage if required. This unit needs to be picked up and transported by a prime mover.

## Specifications

### 48ft Wheeled Bulk Liquid Storage Tank

*Specifications may vary*

External		Weight	
Length (mm)	14,537	Tare (kg)	12,761
Width (mm)	2,500	Payload (kg)	138,600
Height (mm)	3,155	MGW (kg)	151,361
Volume			
Litres	77,000		
m <sup>3</sup>	77		

Top:  
Connect to a  
prime mover  
with ease

Middle Left:  
Stairs stowed  
for transport

Middle Right:  
2 x 500mm  
entry hatches
