CHEMICAL STORAGE CABINET

1 PALLET WIDE

Chemical Storage Cabinet 1 Pallet Wide

Free up space in your workshop by safely storing your dangerous goods, including chemicals, corrosives and flammables, outside in a secure, lockable Chemical Storage Cabinet.

Key Features

- AS1940 compliant
- Forklift pockets in both directions for ease of movement onsite
- Bund capacity of 1,300L
- Safely store chemicals, corrosives and flammables

Options

- Need something custom built? Call 131 132 to discuss your requirements

Details

SCF's Pallet Wide Chemical Storage Cabinet is designed for space constrained sites. It comes standard with 3 shelves for the storage of chemicals, corrosives and flammables in multiple small packaged items.

It can also be reconfigured for the storage of one IBC or utilise shelving for the storage of small packaged items.

Keep your hazardous goods secure with the external lock whilst keeping workers out of harm's way with the use of the interchangeable placard signage plate located on the external doors.

As with all SCF Dangerous Goods products, the Chemical Storage Cabinet comes with an internal escape mechanism for peace of mind for your employees.
